CASE STUDY

EXPERT DIGITAL FORENSICS REBUTTAL SECURES LEGAL VICTORY IN DATA THEFT CASE

CHALLENGE

Repario's law firm client represented a departed employee accused of data theft who denied any wrongdoing. Our client needed an expert to analyze and identify any flaws in the opposing expert's findings and methodology. The law firm partner was a skilled trial lawyer but wanted the benefit of a digital forensic expert's technical guidance to help prepare cross-examination of the opposing expert.

SOLUTION

Repario analyzed the opposing expert's reports and raised material questions regarding its methodology. This led to production of the forensic image that formed the basis of the opinion, which Repario analyzed. Our digital forensic experts identified flaws in the opposing expert's findings, providing rebuttal reporting and testimony. From there, we proactively advised defense counsel regarding potential avenues of cross-examination and provided associated technical guidance.

RESULTS

Repario's client prevailed in a hearing seeking a preliminary injunction. This led to a favorable resolution of the underlying lawsuit, saving the end client's employment and providing a great success story for the law firm partner.

ABOUT REPARIO

Repario is an agile legal services company that synchronizes human intellect and modern technologies to deliver integrated eDiscovery, IaaS, Managed Review and expert Forensic services that transform raw data into actionable intelligence by **collaborating** closely with clients to help achieve their goals.
